INDEX TO VOLUME 24 — JANUARY TO DECEMBER 1975

This index is in two sections. The Subject Section is an alphabetical index to **Articles, Research Reporter, Researcher's Bookshelf, Research Q. and A,** and **Abstracts.** Geographic entries are by name of some Cities, State, Province, or Country. The Name Section is alphabetical by surname of author; however if the author has more than one given name, initials are use e.g., Smith, John; Brown, I. M. Joint authors' names are listed only for articles from nursing journals. Abstracts of articles that have been published in *Nursing Research* are cited thusly: 24:40;24:399(544) means the article is on p. 40 and the abstract on p. 399, abstract number 544. The following abbreviations are used: (ed)–Editorial; (bk rev)–book review; (RR)–Research Reporter; (QA)–Research Q and A.

Note that the subject headings are the same as those used in the **Inernational Nursing Index (INI)** and are based on the *Medical Subject Headings* published by the National Library of Medicine. A "Nursing Thesaurus," which lists nursing headings commonly used with referrals to the headings used in **INI** and in the annual indexes of **Nursing Research, Nursing Outlook,** and **American Journal of Nursing,** is published each year as part 2 of the first issue of **INI** and is bound in the fourth and cumulated hard cover issue. Copies of this Thesaurus are available from the Editor, **International Nursing Index,** 10 Columbus Circle, New York, N. Y. 10019, price $2.00.
